
Economy in the US

Posted by Lori - 2009/02/27 17:04

No doubt we are all beginning to see the stark effects that the changes in the economy is causing in our nation. Is there hope on the horizon? More than ever are suffering the effects of joblessness and hardship. Our new president seems to be working toward answers and actions that may help our nation. But in the meantime we can pray without ceasing for God's intervention on our country's behalf.

How are you effected during these times? Can we pray for you at Riverview? We believe prayer does change things and Jesus Christ does answer prayer. We would love to add you to our prayer list.
