
I want to give a big THANK YOU to Riverview!

To all the dear folks at Riverview:

I wrote a whole bunch of "thank you" cards last summer, thanking all of the people who sent me congratulations and warm wishes upon my graduation. However, there was one snag. I signed and sent off all of the cards I wrote with my brother, which means I didn't record the cards that came in for me alone on the same page, and those thank-yous didn't get sent out.

I realize this is half a year late, but I just wanted to say thank you to everyone who sent their love and congratulations to me.

Thank you, thank you, thank you! to:

Grandpa and Joyce
Miss Lillie
Uncle Mike and Aunt Lori
Uncle Joe and Aunt Doris
Uncle John and Aunt Mary
Albert Lee and Donnis
Uncle Rusty, Aunt Jill and Nick
Aunt Pam, Uncle Gene, Dustin and Devin
Aunt Kathy, Uncle Myron, Levi and Jacob
Joe and Wanda
Joyce
Erika, Nathan, Landon and Mallori
Don, Cristi and Kody

And thank you to all of the other Riverview members who have sent prayers up for me and my family!

With Love,
Sabrina

PS: I apologize that the attached picture is so grainy; the lighting in that room is impossible, but it was the only air-conditioned spot we had access to, as we were kicked out of our dorm building that morning! The other people in the picture are my highschool friend/college roommate Lily and her parents. I still have yet to edit all the rest of my pictures!

I would like to add my thank you to Riverview family for the welcome, and friendship, that was extended to all of us that attended Dixie's gathering of her chat room friends the latter part of May. I think the entire congregation turned out for the dinner!

I, personally, want to thank your for the warm welcome I was given when I went to your services that Sunday morning. There is such a warm feeling of fellowship when anyone walks into your church. The Lord has certainly blessed you and blessed me that day when I met all of you.

Thank you Pastor Mike and Lori for inviting me. And thank you for putting your sermons on line.
