
Howdy

Posted by Lori - 2007/10/02 09:47

Hi to all who view and post! I am the wife of the soon to be Pastor of Riverview Bible Church and will be moderating and assisting with this website. I hope we can get interest from all our members and friends with computer access to drop a line or two on the site. If new to the forum, you must register to post. I will help answer any questions about the site you may have--just email me at lori@riverview-bible-church.org

Hope to hear from you soon!:lol:

Greetings to all who may read this!

I am the sister of Riverview's new pastor. I am far away in miles, but close at heart. I thank my sister-in-law Lori for moderating this forum.

I chose a tree with roots as my picture because my roots are in Riverview, my childhood church. I also use this picture when I teach students about the roots of the English language. My own love of words is rooted in the many KJV Bible verses I memorized growing up at Riverview.

I hope that soon a memory program will start there again. Perhaps we can even include some "distance learning."

Hello Aunt Lori, and Mom, and all else who may be reading this! I finally got myself an account, and I suppose I may as well introduce myself.

Continuing on in the vein of this thread, I am the niece of the pastor and his wife, and the daughter of the poster right above me.

I hail from California, of which (unlike my mother) I am a native. It's been over four years since I was last in Missouri, but I do hope to change that, perhaps this summer.

I hope all is well in Missouri. It's rainy here in California, but most of us are inside, safe and dry and thankful for the rain!

I am off for now to explore the rest of the forum. =)
